LINE Official Account lets companies from large corporations to individual stores create their own dedicated LINE accounts. There are currently more than three million official accounts in Japan covering a wide range of industries. LINE Official Accounts is a service which allows businesses to contact users while blending in to their daily lives just like using LINE to communicate with friends and family.

#### Feature #1

# Connect with 96 million users\* through LINE

Businesses and stores can use messaging and other features to communicate and build mid-to-long-term relationships with users who friend their LINE official account.

# Drive customers to stores and official websites

In addition to messaging, businesses can use other nifty features (e.g. one-on-one chats, and giving out of coupons and digital loyalty cards) to attract users to their website or physical stores.

# Free to get started, then pay-as-you-go

Businesses can get started immediately with a fixed monthly fee starting from zero yen. Paid plans use a pay-as-you-go system, charging the monthly fee and then billing for additional messages sent. This provides flexibility for every type of budget and schedule.
