LINE

LINE MINI App channel 在台灣尚未全面開放。目前僅有通過開發資格審查的個案可以開通

See the LINE Developers Console Guide for LINE MINI App ⧉ before applying for a pre-examination.

Localization (multi-language support)

Depending on the language set in the user's LINE app, your LINE MINI App's name and description can be displayed in various languages. To request a review, the channel name and description must be set in English under the Localization (multi-language support) setting.

In the Published LINE MINI App channel, the Channel name and Channel description registered under "Basic information" will be copied into the Channel name and Channel description fields in "Localization (multi-language support)" corresponding to the LINE MINI App's region.

LINE

Service message template

- You can send important notifications as a message to users via a LINE chatroom even if a user has not added your service as a friend.
- You can only send a message in response to users' specific actions. You cannot send a message for marketing or advertising purposes.
- Check out various types of templates offered by LINE MINI App, and select the one that fits your user base.

What will be reviewed

The following fields will be reviewed by LINE. The fields must be filled before requesting a review:

✕ Basic settings   Channel icon，Privacy policy URL，Localization (multi-language support) (3)

✕ LINE MINI App   Channel icon image source，Function category，Customer support page URL ...(11)

✕ Contact information   First Name，Last Name，Email address ...(7)

✓ LIFF

✓ Service message template

Content to be referenced during the review

[   ]

✓ Enter no more than 500 characters

In subsequent review requests after the first successful publication, the following fiel

- Basic settings (Channel icon, channel description, channel email address, localiz
- MINI App settings (Customer support information, customer support page URL,

[   ]

✓ Enter no more than 500 characters

In subsequent review requests after the first successful publication, the following fields will not be examined by LINE reviewers:

- Basic settings (Channel icon, channel description, channel email address, localization information)
- MINI App settings (Customer support information, customer support page URL, customer support email address, LINE Official Account URL)
- LIFF settings (Share Target Picker, bot link feature, header background color)

Note: In the case where modified information includes information that needs to be examined by LINE reviewers, the modified information will be reflected only after the examination is completed.
Request review

Before requesting a review, see **Submitting LINE MINI App** ⧉ and confirm that you have completed all required tasks listed. If you pass the review, the `Enable search` button will appear, which you need to press yourself. If left unattended, search will be automatically enabled after 30 days.

開發完成且上述所有資料填寫完整後，按下"Request review"後即可送出審核申請。審核流程平均約需5~10個工作天。審核通過後，開發者可自行決定服務正式上線(Enable Search)的時間

Enable search

Search will be enabled 30 days (including holidays and weekends) later, even if you don't click "Enable search". Once search is enabled, your App will automatically appear in the search results on the LINE Platform. For details, check the documentation ⧉ .

審核通過後會進入到Published狀態，按下"Enable search"後就會開啟 LINE App搜尋即正式上架並向用戶公開。

(搜尋功能一般在開啟後幾小時生效。一旦進入到Published狀態就無法再撤回申請；若要重新修改設定，需進行re-publish才能生效)
